HOME NETWORK CONTACT US PRODUCTS

NEWS Uniglobe Kisco, Inc. has established KISCO Conformal Coating, LLC
[Click for detail](#) in San Jose, California and Milford, Connecticut.

From basic materials to advanced materials, **Uniglobe Kisco, Inc.** supplies Parylene coating materials, Polyimide films and a full range of products and services related to such industries as electronics, automobiles, plastics, cosmetics and household goods. Along with the latest information and technology, we provide the best consulting to support the success of our customers' businesses.

Uniglobe is an ideal partner for the customers of high-tech industries integrating the newest information in technology and materials.

Uniglobe can provide value-added products, information, technologies and services throughout our global network.

Uniglobe Kisco, Inc. was established in 1973 in New York as a subsidiary of **KISCO LTD.** of Japan. In 1997, KISCO's Santa Clara representative office in California became Uniglobe Kisco, Inc., Santa Clara Office, and the San Diego Office of Uniglobe Kisco was established in 2000 to serve customers in Mexico. The original Santa Clara office has recently moved to nearby San Jose, California.

Our parent company, KISCO started business as a trading company specializing in chemical products at Kobe, Japan in 1921. Now, KISCO has 8 sales offices in Japan, 11 overseas sales offices in Asia, Europe and America. In addition to those sales offices, KISCO has 6 plants in Japan and 6 plants in Southeast Asia for chemicals, plastics and electronic products.

Corporate Overview

Offices	New York San Jose
Established	1973
Capital	US\$2.5 million

Importing

We import diX (Parylene coating material) from Japan as an exclusive agent. The manufacturer of diX is Dai San Kasei, which is a sister company of Uniglobe Kisco. Also, we are an authorized agent of Upilex (polyimide film) of UBE.

Importing Advanced Material

- ◆ [Parylene coating material \(diX\)](#)
- ◆ Semiconductor production equipment ([X ray inspection machine](#), [Die Bonder](#), [EcoPeeler](#))
- ◆ ESD Solutions ([Static Charge Measuring Equipment](#), ESD detector)
- ◆ [Isostearyl Alcohol \(Fine Oxocol 180\)](#)

- ◆ Battery Material (Aluminum foil, Copper Foil)
- ◆ Material for LCD (liquid crystal, polarizer, LCD production equipment)
- ◆ Adhesives

If you have any questions about above products, please contact us by [Inquiry Form](#) or [E-mail](#)

Exporting

Utilizing our global network all over the world, we are developing new markets for the manufacturers in the United States.

Exporting Material

- ◆ Battery materials (lithium ingot, equipment for battery production)
- ◆ Material for LCD's
- ◆ Biochemical products

If you are looking for markets in Japan and other Asian countries, please contact us by [Inquiry Form](#) or [E-mail](#)
